As Term One draws to a close at Murrurundi Public School, families and friends of the school can reflect on the many academic, sporting and extra-curricula activities and achievements which make our small school such a positive influence on the lifelong education of our children.

During this term we have welcomed a number of new students, enjoyed our Swimming and Cross Country Carnivals, worked hard in our classrooms on spelling, reading, writing, mathematics, hsie, and technology, travelled afar to enjoy the creative arts, as well as studying back at home with a whole school music day. We put on our scientists caps and participated in a number of experiments, as well as caring for and learning about our environment.

Students in K-3 have been to see Aladdin and his Magic IPod in Quirindi and 4-6 travelled to Sydney to watch Annie - The Musical. Both exceptional experiences made affordable with the ever generous support of our P&C.

Our students are all making pleasing progress in the areas of literacy and numeracy through a number of beneficial programs which are running throughout our classes. We would especially like to thank our parents and community members who have volunteered their time to listen to children read aloud throughout the term, it is this practice which helps our children excel. If you would be interested in volunteering some time to help in Term Two then please contact our school office on 6546 6057.

On Thursday 5 April from 10.30am to 11.30am our school will host a special assembly for Seniors and to celebrate our achievements in Term one. We welcome you to come along and join us.

Murrurundi Public School provides an excellent education for your child with an emphasis on the core subjects of literacy and numeracy. The school is part of the National Partnerships Program which has a focus on literacy and numeracy outcomes for all its students as well as being involved in our community. The school's teachers and staff are professional, caring and committed to providing a stimulating and progressive learning environment.
